

Interest high in ocean strip

CONSTRUCTION has started on Terranovis' Ocean Road Estate in Coogee, a new development to house 1000 people.

Terranovis sales representative Kaylene McTernan said interest in the estate had been strong since sales were launched this year.

"We made the first release, quite a large one, of 70 lots because we got so much interest from prospective buyers before the estate was even launched," Ms McTernan said.

Together with the Port Coogee marina, the Ocean Road Estate will transform Cockburn's coastal strip much of which was market gardens.

The estate has been designed with environmental harmony in mind and landscaped parks and gardens will make up nearly 8ha of public open space.

Ms McTernan said she was thrilled the estate was coming together and people would be able to see what it looks like.

"Our sales office is now open and we are planning a 16-home display village," she said.

For information about the remaining Stage One home sites, contact Ms McTernan on 0414 300 115. The sales office at the corner of Ocean and Hamilton roads Coogee is open on weekends between 1pm and 5pm.
